Another star is added to the National banner-ar other State has been admitted, by Congress, into the federal Union. The new State of Minnesota lies next north of Iowa and west of Wisconsin. Sie has the Missouri river for her western boundary, which separates her from Nebraska, and she extends northwardly to the British possessions. The estimated area of the new State is one hundred and twenty thousand square miles, which is nearly twice as large as all New England.

"This is a great country"-we speak now, not merely of Minneanta, but of the whole Union. At least, so say the geography and the 4th of July orators. Stretching from the Atlantic to the Pacific, with a population of twenty-five to thirty millions, the happiest variety of climate, and a bound less fertility of soil; with vast and thrifty cities, long lines of milroad that would half encircle the planet, and ships on every sea: boasting evermore of our republican equali ty, and of a constitution which plainly de clares its purpose "to establish justice um to secure the blessings of liberty"-we are yet so miserably pair pered and shackled by an odious Slave oligarchy, that we connect get a free State admitted into the Union, without first making some wicked and degrading concessions to Slavery !

So it was in the case of California-so it has been in the case of Minnesota. In consideration of the wholesale proffer of bribery and Slavery to Kansas, first made by Congress, we are gratiously becomed with the admission of Minutsota into the Union-for which mercy, at the hands of Slave-drivers and their abettors, we are, we suppose, to be duly thankful.

One thing, however, in this comexion, the honest and freedom-loving men of the North should clearly understand-and their future duty will thence be my ifest .--The Slave Power rules us only by Pic aid of Northern doughtaces -- the James Buchanans, Franklin Pierces, Calch Gushings, the Allens, Bishops, Englishes, and the like. These political traitors, the whole race of them, should be exteroinated .--They have been the curse of the country for forty years past. Caring only for " Spoils," they trample the great foundation principles of the government under font. Let us make short work of such reprobates hereafter... NEWPORT BEACH.-The Newport Mercury calls attention to the fact that the sand which is so necessary to the attractions of Newport Beach, has been so diminished in quantity by constant carting, that a material change for the worse has been effected.— Tens of thousands of loads have been re-

We are strongly of an opinion that the Mercury, when he perpetrated the item alluded to above, was sadly under the influence of an unhappy spirit, inherited, of course, from his mythological name-sake,that of Mischief-making. Mercury-the messenger of fabled gods-had a decided reputation, even among his worshipers, of reporting "local news" of a kind from which fact was often utterly banished, to make elbow-room for a inventive and ceeen hestatingly affirm this " sand story" to be.

Our compositors hel indebted to Mr. II. Young, for a bountiful supply of Figs; they were delicious. Those of our readers who would like a supply should call on Mr. Young, at his model store, corner of Mill and Thomes street, for he has a "few more of the same sort."

The river thieres or pirates, recently cap-tured at McGregor's Landing, Iowa, are not handled very gently by the people of that neighborhood. Under the direction of the Vigilance Committee, six or seven have been whipped and shaven, while four others, to save them a coat of tar and feathers, were humanely sent down the river in a skiff. Two others have been committed to prison to await trial.

LOCAL NEWS.

To Years ago, while the wax of our childhood was in a state of coftness and freshness exceedingly susceptible of rapid and glowing impressions, we cherished the fond idea that Election day-that gorgeous, noisy, sulphurous, spendthrift day-was the kirth-day or the gala-day of the Artilicry Company, and that all its delightful accossories of egg, and sugar, and peopermint, were the particular core and the pecollar property of that ascient and honorable corps. And we have not yet emirely abandoned that notion. We will regard the Artillery as a very large share-holder in Election Stock. Therefore, feeling in cuty bound to say a word in reference to these two intimate subjects, we have wisely conpains-taking and accurate journal.

And now we are prepared to congratulate our neighbors upon the approaching seits that any act of impropriety on the festival. Firstly, because the season is so forward this year, and Nature, consequently seems unusually propitions-is on the prompt attention and correction, broad grin, figuratively speaking. Secondly, we have a Mayor-not to speak dischere by a member of Congress from a genparagingly of former ones by any meanswho is especially at home in bringing the unruly and boisterous element of such oceasions, into a cheerful and harmonious sense of what is lawful and proper. Thirdly, beyond all, our ancient and henorable Artillery are expected to rejoice in a new uniform. Not a half-way dress; but a magnificent, martial costume, arrayed in which the mildest of men becomes transfigured into a hero of fire and bronze. In view of this last fact, we cannot help calling attention to the singular good fortune of Governor Dyer, to whom Election day possibly presents some highly interesting features, but none, we dare say, more satisfactory than the proud consciousness of heing escorted to the gubernatorial chair, by the famous Artillery, the presiding Genii of the celebration, clad in resplendant and unsul-

As this performance is to be a full-uniformed, holiday affair, we presume the flame-devouring "Button Machine" will be suffered to remain at home. In any event we are sure that nothing but occasion. It is hard for a citizen of this place to comprehend the mischief which sometimes arises from the fire organizations of larger cities. Nothing could be more amiable and fair dealing than the conduct of our different companies toward one another. Scarcely a shade of party feeling, beyond a spirit of generous can lation, has over shown itself between them. Having a

CORRESPONDENCE.

WASHINGTON, Monday, May 17th. No official correspondence has yet transpired in regard to the seizing and searching of American vessels by British cruisers, for the reason that no dire t complaint has been made to the Government. The British Minister, in private conversation, sug gests that the United States recognizes the right of all Nations to maintain police of the high seas for the suppression of piracy, and the slave trade, which is universally declared the same thing, and that it is as evident that American vessels are engaged in the slave trade, as it is that they are questioned on that subject; he suggests that during the present times, innocent vessels ought to be willing to submit to a reasonacluded that, as they are so closely united ble examination for the general good, in in association and in actual things, so shall which all good men ought to feel equally they not be divided in the columns of this ! interested, and that his Government will not justify any unreasonable or improper conduct on the part of her officers. A private letter has just been received tleman, who recently went from New York to Utah out of sympathy for the Mormons to try to prevail on them to yield obedience to the United States laws. He says that going there, as it were, in the confidence of, and as counsel for the people, he does not feel at liberty to be over communicative to the world at large. He only speaks of such matters as he thinks it would be of Themas Hood. But he surpassed all mutual benefit to have understood. Among other things he says that the greatest His wit was all steel points-and his talk dread of the Mormons is of the profligacy of the United States troops. They fear this more than they do their powder and ball. He says that if they could now have a most filial manner by his son, and every ernment, without the "passe comitatus," they would most cheerfully do so.

The Bill introduced in the House on Sat urday to apportion the Clerks and Messengers in the Departments at Washington, among the several States and Territories and the District of Columbia, is a sure thing, in both Houses, a popular and state measure which Congressmen there not vote against-and is destined to work a great change in political matters here.

AN AWAY TO SEA. An Autobiography for Boys. By Captain Mayne Reid.— Boston: Ticknor and Fields.

This book is another of those delightful ales of adventure, full of interest and good instruction, of which Mayne Reid has given us so many, but of which neither we cor the boys are in the least tirrd,

In many respects this is his best book yet. The narrative is excellent, and the moral tone is high and healthy. Received by Ward.

RECOLLECTIONS OF THE LAST DAYS OF SHILLEY AND BYRON. By E. J. Tre-lawny. Buston: Ticknor and Field.

We have in these "Recollections" the nost interesting, and probably the most ; trothful account of the "Last Days" of the two remarkable men of which they treat.

The book is written con amore and sets in their true light, some things in regard to these parts, about which the critics have for the last thirty years wasted a myriad words.

The picture of Shelley, his habits and his death -the account of Byron's last adventure in Greece, are specim as of simple and effective writing worthy all praise.

It has been well said of Douglas Jerrold that "he had less frolic than Theodore Hook, less elaborate hunor than Sydney Smith, less quibble and quaintness than these in intellectual flash and strength .was like squadrons of lancers in evolution."

The volume before us is a collection of specimens of this characteristic wit, made in the alternative of accepting the U. S. Gov. | page thereof illustrates the fine definition and distinction given above of the conversation of the strongest and plainest wit of our day.

> We should be glad to give a column of these specimens but as everybody will read the book, which is beyond any praise of ours we will confine ourselves to a single line of quotation, which contains more philosophy, as well as wit than any metaphysical treatise we have ever seen on a similar subject. "Dogmatism" says Jerrold, "is Puppyism come to materity."

LOTTERIES.—The Lotterles of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lotterly will be drawn every Saturday throughout the year, oil orders received being filled in the drawing next to take place after the same comes to hand. According to the achenic one disket in every ten must draw a prize. Tickets ore \$10; halves. \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are up in the principle of one number on each ticket, and are so simple that nane can fail to understand them. There is no each bination of numbers to mistify the buyer. Prizes vary from \$40 to \$60.000; every prize ing drawing and result of drawing forwarder to all purchasers.

LOTTERIES.—The well known Mary Ind Consolidated Lotteries, of which R Francis & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is camed, orders are filled in the first drawing to take place after the communication comes hand. The prices of tickets vary from \$1,00 to \$20.—No tickets however, sent unless the momony for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Haxana plan), and Ternary combination. Prizes vary in amount from \$20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address 1. Hollowing Papers, viz. Sun, Clipper, Parriot, American, Argus, of Baltimore, also, the National Intelligencer and Interes 1.
